

NOS NG15-2 (OCS)

Base map information including bathymetry, compiled by the National Ocean Survey from NOS hydrographic surveys supplemented by hydrographic information from other sources. Bathymetry contour interval: 10 meters to the 200 meter depth, supplemented by 2 meter intervals, thence 10 meters to the maximum depth, supplemented by 10 meter intervals. Datum: MLLW.

Universal Transverse Mercator Grid Zone 18, 19, 20 (meter scale) is shown on the map. Lack of sufficient data on portions of the map requires the use of generalized bathymetry lines to infer probable shape for contour or depth contour features that would otherwise appear truncated. The term lines are not at the prescribed contour interval.

Publication Diagrams were prepared in accordance with the Bureau of Ocean Management.

This map is NOT A LEGAL DOCUMENT for federal leasing purposes for such projects as the BLM Outer Continental Shelf Offshore Production Diagrams.

There are two scales shown (one of them projection diagram).

EVALUATION OF SURVEY ACCURACY

Survey Number	Survey Date	Base	Line Spacing (Meters)	Horizontal Accuracy
11-017	1951	80,000	25-100	±0.7%
11-218	1954	100,000	25-100	±0.7%
11-001	1951	80,000	25-100	±0.7%
11-010	1951	80,000	25-100	±0.7%
11-005	1951	80,000	25-100	±0.7%

VERTICAL ACCURACY (Meters)

±0.3% to ±1.0%
