

BATHYMETRIC MAP

New map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic surveys supplemented by hydrographic information from other sources (see index). NOS hydrographic survey data complies with International Hydrographic Organization (IHO) Publication 44 accuracy standards, or those used at the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator (UTM) Zone 18Q UTM coordinates (Easting and Northing) are shown inside the map frame.

Offshore protection survey data, printed in red, compiled by the Minerals Management Service. Heavy lines indicate limits of 1985 Outer Continental Shelf Official Protection Diagram. The protection on this map are not for Federal leasing purposes, for such purposes refer to the OCS Official Protection Diagram available from the Minerals Management Service.
