

Best available information regarding bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic surveys supplemented by hydrographic information from other sources (see index). NOS hydrographic surveys also comply with International Hydrographic Organization (IHO) Publication 44 accuracy standards as shown on the date of the survey. This information is not intended for navigational purposes. Universal Transverse Mercator Grid Zone 2, 13000 Meter Ticks (1:4) are shown inside the profile. Oblique projection survey data, printed or not, compiled by the Minerals Management Service. Heavy lines indicate limits of MMS Outer Continental Shelf Offshore Production Diagram. The projections on this map are not for Federal leasing purposes. For such purposes refer to the OCS Offshore Production Diagram available from the Minerals Management Service.

SPHEROIDAL SURVEY ADJUSTMENT

ADJUSTMENT	DATE	BY	REMARKS
1	1988	NOA	NOA SURVEY
2	1988	NOA	NOA SURVEY
3	1988	NOA	NOA SURVEY
